

IDEAS ADR/ISDN Specs

Scheduling Contact:

Bethany Harris

bharris@ideasorlando.com

Direct Phone: 407-601-7878 ext.0

Mixer: Rob Hill

rhill@ideasorlando.com

407-601-7878 ext. 5347

For ISDN questions or issues:

Adam Long: 321-304-7037

ISDN Boxes/Numbers:

Telos Xstream: 407-835-5427 & 407-835-5428 (Telos then has many codecs of its own. Our "normal" setting is L2 - 128 but changes all the time depending on needs. We would need to coordinate with other studio so we are both on the same settings.)

Dolby Fax: Mono 407-835-5427 & 407-835-5428
Stereo add 407-835-5429 & 407-835-5430

Phone Patch: 407-412-6991

ADR Video:

Recommended Video Files: H264, Motion JPEG A, Photo JPEG, etc. We are pretty flexible with accepted video formats, please check with us prior to sending if you need to send a different format. We can accept videos on tape (HDCam, Digital Beta, & Beta SP) but we would need to charge for tape to file conversion, typically \$125.

Recommended Video Frame Rates: 29.97 & 23.976 (pull up/down are ok). Aspect ratio is not critical. The smaller the file size the more efficient we can be, but typically do not have any issues.

NOTE: All ADR sessions are billed minimum 1 hour set up to prep the session.
